REDS PENETRATE THE CRIMEAN PENINSULA

LONDON, November 10.—Penetration of the Crimean peninsula is being reported by the Russian Soviet official statement of Tuesday, received here today by wireless.

The statement says: "In the Perekop region we are fighting for possession of the enemy's fortified positions. Further east, during fighting we crossed the river Sivach into the Crimean peninsula and debouched at Kharbushana."

Probable Make-up Of Harding's Cabinet Forecast By Lawrence

The following are President-elect Harding's probable selections for his cabinet, according to David Lawrence:

Secretary of State—Philoander C. Knox of Pennsylvania.

Secretary of the Treasury—Governor Frank O. Lowden of Illinois.

Attorney General—Harry M. Daugherty of Ohio.

Secretary of War—John J. Pershing.

Secretary of Navy—John W. Weeks of Massachusetts.

Department of Agriculture—Henry Wallace of Iowa.

Secretary of Labor—John F. Burke of Pennsylvania.

Postmaster General—Will H. Hays of Indiana.

Secretary of Commerce—Undecided.

Senator Knox voted against the treaty and reservations of any kind but differed from his colleagues in the irreconcilable group by offering constructive suggestions for a concert of nations to enable American to play her part in world peace movements.

Knows how to handle diplomats. Mr. Knox was Attorney General under the Taft administration and also Secretary of State. He knows how to deal with foreign diplomats and thoroughly acquainted with the traditions of American foreign policy.

Senator Pershing would be especially pleased over the appointment of Senator Knox. It is a fact that Senator Pershing helped to bring the President-elect to the White House convention in the by using the name of Knox as a dark horse. Friends of (Continued on Page Eight)

ENORMOUS WASTE OF U. S. FUNDS, ALLEGED

NEW YORK, November 10.—Judicials and corporations of no financial standing and no experience in maritime affairs have been allocated United States shipping board vessels for operation, J. E. Richardson testified here today when the Walsh congressional committee resumed its investigation of alleged irregularities in shipping board affairs. Richardson is secretary and staff-in-chief to the Walsh committee.

Such allocation, the witness asserted, has been performed at will by a "director of operations" under the shipping board who "commandeered" vessels from established transport lines and reallocated them to private companies. Ships, he said, had been turned over to companies in which relatives of members of the shipping board were financially interested.

"The statement has been made," he said, "that out of 200 to which ships have been allocated, there are so many irresponsible companies that the list must be cut in half."

PARISH HOUSE DYNAMITED

ST. LOUIS, O., Nov. 10.—The parish house of Holy Trinity Slovak Catholic church was dynamited early today, the parish being blown off. No one was injured. The house is occupied by Rev. John Frenka, recently installed priest against whose appointment a protest was made by members of the church who for a time maintained an armed guard to prevent his taking possession.

Protesting members of the church declared that the former incumbent, Rev. Joseph Zalibera, was removed because he urged autonomy for the Slovaks and that Rev. Frenka was installed because he favored the Czech-Slovak union. Officials of the church organized in Cleveland, however, denied any political motive in the removal and appointment.

The explosion today broke all the windows in one side of the parish and one side of the church and also broke windows in a hall across the street.

WASHINGTON, Nov. 9.—Philoander C. Knox, United States Senator from Pennsylvania, will be Secretary of State in the Harding administration if his health permits him to accept the office. Senator Knox is President-elect Harding's first choice.

This and other names under consideration for the Harding cabinet have come to the writer from men who discussed the entire cabinet situation with Senator Harding before the latter went South.

In a general way, President-elect Harding feels that he must follow certain geographical lines in picking his cabinet. Certain states are demanding recognition and it is probable that certain excellent men may have to be eliminated simply because of the embarrassment of selecting two men from the same state.

TYPHOID EPIDEMIC UNCHECKED

ALLIANCE, O., November 10.—Many new cases of typhoid fever have developed in Alliance as a result of the epidemic there, within the past twenty-four hours. No deaths, however, have occurred in that time, but many cases are reported as having taken a critical turn. State and federal authorities arrived yesterday and worked practically all of last night, in the hope of clearing the situation.

A joint meeting was held, convening at 9:30 this morning in which state and federal men, members of the Business Men's Association, Board of Health and chamber of commerce participated. Dr. W. H. Dittus, chief of the department, Dr. F. G. Burdett, epidemiologist, Dr. F. Oldt, district supervisor, F. H. Waring, assistant engineer, Ross Hopkins, assistant epidemiologist, Dr. E. H. Shaffer and Dr. P. P. Mahoney, of the state department of health were all present. At this meeting a plan of work is to be mapped out, which will include a careful examination of the recently developed cases, records secured concerning the possible source of infection, and sanitary investigation of every home in Alliance.

Thus far it has been impossible to check the spread of the epidemic, new cases being reported hourly from various parts of the town. It is reported that the total number of cases now reach close to seven hundred.

CLAIMED HIM TO COW
TIES CHASED COW

YOUNGSTOWN, O., Nov. 10.—When Frank Hoh remonstrated with Anthony Dinnelovich for pasturing his cow on Hoh's land, Dinnelovich knocked Hoh down with the cow chain, beat the chain around his neck and chased the cow, according to information lodged with police today by Hoh, who said he was dragged 200 feet. Dinnelovich was jailed on a charge of assault.

PEACE DOVE HOVERS OVER BASEBALL WAR

KANSAS CITY, MO., November 10.—Peace is in sight in the major league baseball war. This statement was made by August Herrmann, representing the National League, when he appeared today to address the National Association of minor leagues. He said an informal meeting of the sixteen high officers of the National and American Leagues would be held in Chicago Friday.

TYPHOON HITS SHIP; 48 ARE MISSING

MANILA, P. I., November 10.—Forty-eight persons are believed to have perished when the coastwise steamer San Basile, was struck by a typhoon last Wednesday enroute to Puerto Hela, Leyte Island, South Philippines, according to a survivor reaching here today. Fifty survivors reached Cebu.

News of the disaster was brought here today by Concordia Earlo, a survivor picked up by the steamer Samal after drifting four days in an open boat.

Puerto Hela is on the south coast of Leyte, more than 300 miles south of Manila and in the center of a typhoon belt. It is the only safe anchorage from typhoons on the south coast of Leyte.

Graeco-Roman Baths Of U. S. Senate Being Cleared Of Cobwebs So Senator Can Enjoy Them

WASHINGTON, Nov. 10.—The Graeco-Roman baths of the United States Senate, installed nearly eight years ago, but never put into service, are now being cleared of the cobwebs and stains of time, and will be in shape to offer their luxuries of steam, plunge, shower, and electricity to the members of the new senate when it assembles.

Charges of extravagance were aimed at the baths in congressional debate when the power of administration laid saving from Republican to Democratic and as the result the baths installed in the then new senate office building, were shorn of their expensive equipment, bereft of their attendants and left to gloom. The marble slabs, Turkish rugs and steam proof tables and chairs were turned over to government hospitals and only the marble slabs and nickel fittings left in place.

Now, however, the baths are coming back, but under a new plan. Members of the senate themselves will pay a large part of the operating expenses, and a special unofficial committee has taken charge of the assessments which will be levied against each member in proportion to the service he expects. The baths will be somewhat less gorgeous than the original plan anticipated, but in their luxury and completeness will still have claim to comparison with private club installations.

Senators will be able to steam themselves out in a series of marble hot rooms, reanimate themselves on the drying room, invigorate under one of the several types of nozzle and drench showers and float in the swimming size plunge.

They also can try massage, the electric cabinet or the prickling shocks from the static machine.

Installation of the baths cost many scores of thousands and some senators at least, feel that the waste of letting the equipment lie dormant is as great as any expense that may be encountered in putting them into service.

AMERICAN RED CROSS NURSES MURDERED BY BOLSHEVIKI

LONDON, Nov. 10.—Captain Emmet Kilpatrick, representative of the American Red Cross in South Russia, and two nurses were brutally killed during a Bolshevik cavalry raid on Kalkov Station, says a Sebastopol dispatch to Reuters, limited.

SEBASTOPOL, Nov. 10.—Twenty American Red Cross workers are believed to have taken safe refuge in the Crimea after the recent capture of Captain Emmet Kilpatrick. Among them is Captain Miller Davidson, of Ashland, Ky.

WASHINGTON, Nov. 10.—Reports reached the state department today that Captain Emmet Kilpatrick, of the American Red Cross, and C. Atchey, of the Menominee Relief Society, had been captured in the Soviet advance in southern Russia. But no mention was made of the possible death of either one. It was believed that the recent assertion of the Soviet government that an "American mission" had been captured by their troops, was founded on the capture of Kilpatrick.

Kilpatrick was last seen, the services said, at Novosvobodnaya, October 29. Mr. Atchey, who is founder of the Menominee Relief Society, landed at Halberstadt, October 25.

Kilpatrick, formerly publisher of a country newspaper, served with the American army in France in September, 1919, and after the armistice as chief of the supply division of the American commission to negotiate peace. He obtained his discharge from the army in Paris in September, 1919, and became connected as a civilian with the peace commission.

150,000 Are Idle In New York State

NEW YORK, November 10.—Nearly 150,000 members of the United Hebrew trades in New York state have been thrown out of work in the last three weeks of "business recession," says a statement issued here today by the organization.

Of these 150,000 are tailors and dress makers, mostly in Greater New York.

The figures include about 75 percent of the tailor and dress goods makers in the Union, Mr. Feinstein said.

Many trades are affected by the slump in the tailor and dress goods makers. "Some of our people are going to work lower wages until the cost of living has come down" so they can do without lowering their standard of living.

Congressman Spends Night Behind Bars

WASHINGTON, D. C., November 10.—After spending the night in a prison police station, Representative Garrett, of Tennessee, was in police court this morning to answer charges of colluding and operating an automobile while under the influence of liquor.

The congressman's machine, the police charged, knocked down Miss Olive M. Schofield, of this city, last night, at Scott Circle, resulting in a compound fracture of her hip.

When the case was called it was continued until November 14, pending the outcome of the injuries to Miss Schofield.

Garrett was released on \$200 bond.

"Ole Clothes" Merchant In Curbstone Market Hard Hit By Lack Of Customers

NEW YORK, November 10.—Fashionable uptown clothes who are moving sluggish stocks by means of elaborately advertised "reduction sales," have nothing in the way of business worries on their frontier brothers of the "ole clothes" curbstone market in New York City.

Members of the "ole clothes" merchant's club, who are struggling to get rid of their "ole clothes" stocks, are not having much success. The financial depression not only has hit the retailers, but the wholesale dealers as well, it was said.

Deny Boise Penrose Has A Relapse

PHILADELPHIA, Nov. 10.—Published reports that United States Senator Boise Penrose, who has been ill for a year, had a relapse were denied today by one of his physicians who said there was no material change in the senator's condition.

Besides his other ailments the senator is suffering from neuritis, which at times gives him much pain. The fact that he is not seeing visitors at this time is believed to have given rise to reports that his condition is worse.

Senator Penrose is making preparations to return to the senate after an absence since last November. He has leased a large apartment in Washington.

EXPLOSION ON FREIGHTER

(BU LLETON)
NEW YORK, November 10.—An explosion occurred about 3 o'clock this afternoon on the Hudson river water front. The shock was felt on many floors. The explosion occurred in a fuel tank of the freighter Elmhurst, tied up at pier 31. Several persons were injured and fear of more blasts held the fire fighters in check.

BODIES OF RARDEN HEROES TAKEN HOME

The bodies of Privates Leslie A. Freeman and Jesse Wilburn, Rarden township soldiers, who lost their lives while fighting with the American Expeditionary Forces in France, passed through the city under the N. & W. Tuesday afternoon enroute to Har- den.

The caskets were draped with American flags and the bodies were accompanied by an escort of soldiers. Private Freeman was the son of Mr. and Mrs. Thomas F. Freeman, who live on a farm near Rarden. He was born Sept. 23, 1890, and was the oldest in a family of several children. He was one of 261 selectives sent to Camp Sherman by the local draft board on June 25, 1918, and a few months later was sent overseas. In September 1918 he was run down and killed by a train in France. Previous to entering military service, Private Freeman was employed as a repairman by the N. & W. Private Wilburn was a son of T. W. Wilburn, Mt. Joy farmer. He was sent to Camp Sherman by the local draft board in the spring of 1918 and later was transferred to Camp Knox, Ky., where he joined the artillery service. Going overseas a few months later, he was killed during one of the big drives against the enemy. In the closing days of the war.

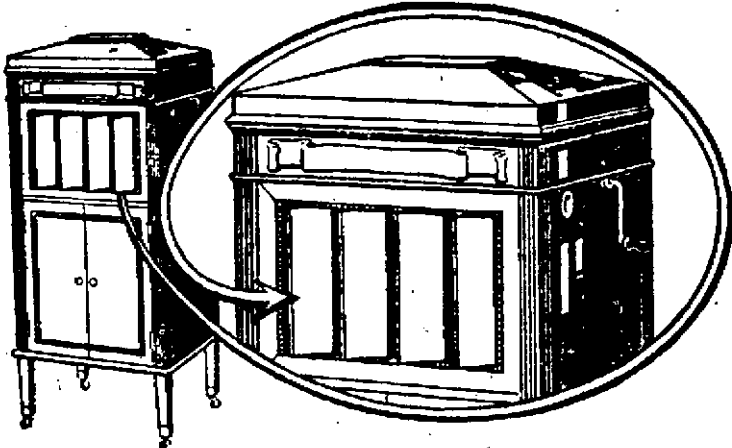

Private Wilburn was about 25 years of age and was engaged at Har- den, before entering military service. His brother, Al. Wilburn, who enlisted shortly after war was declared, and was a member of the First Kentucky Division, also fell a victim to the enemy, being killed during the summer of 1918.

Arrangements for the double funeral have been completed. Burial will be held at 10 o'clock for the bodies of service men the latter part of the week, at which Rarden citizens will pay fitting tribute to the memory of the two heroes.

Private Freeman will be buried at Newnan cemetery and Private Wilburn at Lee O'Brien cemetery. Mr. Jay, and the bodies will be laid to rest with military honors.

A floral from the local American Legion will be sent after the funeral, and the bodies will be buried in the local cemetery.

The Columbia Grafonola's Streamline Cabinets are invariably in perfect accord with modern artistic furniture design.

The Columbia Grafonola's Straight Tone Arm insures that the music will develop fully and naturally. This music will be an exact reproduction of the music the artists themselves produced on the original wax in the Columbia Laboratory.

And, in addition to all these exclusive advantages, the Columbia Grafonola is now equipped with the exclusive Columbia Non Set Automatic Stop. Operates on any record, long or short. Never stops before it should. Always stops at the very end. Nothing to move or set or measure. Just start your Grafonola, and it plays and stops itself.

Ask the nearest Columbia dealer for a demonstration of the stop that needs no setting.

American Goods Big Favorite In Norway

WASHINGTON, D. C., November 10.—The popularity of American goods in Norway is described in a report to the department of commerce by Trade Commissioner Nels A. Bergeson, which says that American automobiles and trucks are so predominant that they give a distinct American touch to street traffic in many of the cities.

Discussing the opportunities for American products in the Norwegian market, Commissioner Bergeson reported that in general the high quality of American tools and mechanism was conceded and the expression was frequently heard that American goods ranked first in quality although somewhat higher in price than the same type of goods from the United Kingdom, Sweden or Germany.

GRIDDLE CAKES and WAFFLES

From the NEW ROYAL COOK BOOK

THERE is an art in making flapjack pancakes, griddle cakes or waffles, call them what you will. But it is an art very easily and quickly acquired if you follow the right recipes.

Here are some recipes for a variety of breakfast cakes that will make grandmother envious. The secret, of course, is Royal Baking Powder.

Royal Hot Griddle Cakes

3 cups flour
1 teaspoon salt
1 teaspoon Royal Baking Powder
1 cup milk
1/2 cup shortening

Mix and sift dry ingredients; add beaten eggs, milk and melted shortening; beat well. Bake on slightly greased hot griddle.

Griddle Cakes with Eggs

3 cups flour
1 teaspoon salt
1 teaspoon Royal Baking Powder
1 cup milk
1/2 cup shortening

Mix and sift dry ingredients; add beaten eggs, milk and melted shortening; beat well. Bake immediately on hot griddle.

Backhouse Cakes

2 cups backhouse flour
1 cup flour
1/2 cup shortening
1/2 cup milk
1/2 cup sugar
1/2 cup molasses
1/2 cup shortening

Sift together flours, baking powder and salt; add liquid ingredients; beat three minutes. Bake on hot greased griddle.

Waffles

2 cups flour
1 teaspoon salt
1/2 cup milk
1/2 cup shortening
1/2 cup sugar
1/2 cup molasses
1/2 cup shortening

Sift flour, baking powder and salt together; add milk to yolks of eggs; mix thoroughly and add dry ingredients; add melted shortening and mix in beaten whites of eggs. Bake in well greased hot waffle iron until brown. Serve hot with maple syrup. It should take about 1 1/2 minutes to bake each waffle.

DOWN GOES PRICES OF HATS a CRITERION

Everybody wants lower priced clothes, but nobody wants cheaper clothes.

We're going to give the public what it wants—fine hats lower priced.

The only way we see to do it is mark the prices down, without reference to the cost of the goods.

We wanted to do a big thing for the people of Portsmouth and vicinity so we arbitrarily reduced prices of hats.

Here they are, the greatest hat values in the state of Ohio:

Schoble Velour Hats \$19 values, our sale price \$14.10 Get 'em early, boys.	Stetson Hats In Stetson's feature hat and other good shapes, all colors. \$9.50 hats, our sale price \$7.50	Stetson Hats And they are dandy shapes and colors. \$8.50 hats, our sale price \$7
Schoble Velour Hats \$16 hats while they last, a good buy at \$12	Schoble Finest Hats \$9.50 Hats \$8.50 Hats These stylish Hats are winners. \$7	Fine Quality Hats \$6.50 values, in dandy shades and shapes; sale price \$5

CLOTH HAT SPECIAL

Men's Cloth Hats, cravenette finish, the very latest and the price is right. \$3.50 reduced to \$2.15; \$4 reduced to \$3.15; \$5 reduced to \$3.85.

Turkeys May Be Scarce For Thanksgiving Dinner

According to local butchers turkeys will not be very plentiful for Thanksgiving and may sell as high as 55 cents a pound dressed. The "crop" is said to be below the normal average owing to the rainy and cool summer.

One prominent dealer said it was too early to predict the price of turkeys, but he has been informed by several farmers that they will have none to sell and usually they have a very large supply.

The monthly reports of the state bureau of markets issued last week show that there were only 6929 pounds of turkeys in storage on October 1, compared with 19,091 last October, a

MISS DOLLY WISE

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Attention, Oh—Miss Dolly Wise—Please print in the paper the nearest way to Arkansas from Portsmouth, O. and also the fare on the railroad.

A REMINDER OF THE TIMES.—If the ticket agent at Piquette can give you this information, write to the agents here. The N. and W. R. Co. is located at Sixth street, the B. and O. at Market street, and the C. and O. on Second street.

Dear Miss Dolly—I am one of the many young girls who has thrown away all her girlish pleasures for the sake of a man. Dolly I shall be very glad if you can help me because I am only 17 years of age and in need of advice. I will soon be married three months but I am not a bit happy. I have a good husband, and he treats me just fine, but still I am not as happy as I thought I would be. When I see all my girl friends so happy and carefree I just think I am a fool. I only had to listen to people I would not be married now. Dear Dolly I even wrote to you and you advised me to wait several years but I did not wait your advice. I want to wait all the while I have been going with a nice young man near my home in Kentucky and he wants to marry me and I have not decided yet. I love him but my other friends, girls, want me to stay single to go places with them. So please tell me what to do. I am jealous of other boys. I can get others I might like just as well as this one. I am in Portsmouth on a visit and there is a nice young man near here who wants my company. He said he would quit all other girls for me. He is from Kentucky and he is just as nice as my friend at home. He is a real good looking man I think is much older looking than the one at home. Please give me your advice what to do as I might like him better some day.

YOUNG WIFE.—You are a married woman now and you must make up your mind to live your life as such. If your husband is good to you and you are fond of him, you should try to be happy and make the most of your life. However, I think your letter should be a warning to all girls who read this column, and who are thinking of marrying at 17 or 18, profit by this girl's experience and wait.

Dear Dolly Wise—We are coming to you for a little advice. We are two girls one 17 years old and one 16 and our girl friend is 17 years old and is going to get married. Dolly do you think she is too young? Dolly we don't think 17 is too young if you get a good husband. Dolly what do you think of a boy that breaks a date? Dolly our friends are usual at us and even speak to us when they meet us on the street. Dolly what can we do to win their love? Dolly how do you like a girl who is before she even gets to the movies? Dolly put this letter in the Times.

LOVE SICK.—It would be a good thing for you and your friends. If the boys would stop breaking dates with you until you are old enough to have company. If they refuse to speak to you, have a little spunk of your own and don't pay any attention to them. Read all the advice about getting married at 17. You are not too young to get into the movies, but you haven't one chance in a hundred of ever getting in.

Dear Dolly—I have a wife and I love her as a man should love his wife. I give her anything that she wants and yet she will not read at all and say that I will not do anything for her. She has two children to feed and I want to live and care for her and the children. What would you do, go away or stay with her?

WORKING MAN.—Stay with her if possible. Perhaps a vacation would do her good. When a vacation on her husband's nerves, or a husband on the wife's nerves, one or the other should take a vacation, and when they come back they will appreciate each other—maybe. You may love your wife, but do you ever tell her so? Perhaps she knows it, but she likes to hear it. She can't always take it for granted. Be thoughtful in little things. A single rose may perfume a whole day. Also be good to the children.

Dear Dolly—Please tell me how to remove fly paper from a garment.

BETTY.—Alcohol or gasoline will remove it.

Dear Dolly—My husband and I have recently moved to Portsmouth from a

Miss Nilsson's Beauty Secrets

Anna Q. Nilsson, the wonderful motion picture actress, who is writing a series of articles on beauty secrets soon to appear in this paper, says that a beautiful rose-white skin and complexion is the very best asset any girl or woman can have. She further states that the best and quickest way to obtain this is to use a simple toilet preparation, familiar to every well known actress. It is called dermivex and can be obtained at the toilet counter of any up-to-date drug or department store. This wonderful dermivex is used by over five hundred thousand discriminating girls and women throughout the country and is rapidly becoming a regular fact. It takes the place of face powder, stays on better and its use cannot be detected. Perfection does not affect it and it will not run off on clothing. Dermivex is especially recommended for dark, sallow, rough skin, freckles, tan, wrinkles and many other facial blemishes. Be sure to read Miss Nilsson's next article. In the meantime get dermivex and try it today. You are sure to be delighted.—Ad.

At half after six this morning, the marriage of Miss Helen Behl and Mr. Louis Harris was quietly solemnized in the study of Rev. George P. Horst of the Second Presbyterian church. Miss Lorraine Harris, sister of the groom, and Roy Hehl, brother of the bride, were the attendants. For the ceremony, Miss Hehl wore a beautiful tulle-trimmed and attractive accessories. She is the daughter of Mr. and Mrs. P. P. Hehl of Arion, and while in this city made her home with her sister, Mrs. William Kennard, of Madison street. The groom, the son of Mr. and Mrs. B. G. Harris, is in business with his father in the Harris Art Gallery. Immediately after the ceremony the young couple went to their own attractively furnished home at 1821 Sixth street, where they will receive their friends.

On Tuesday evening, November 9, Mrs. John Hurt, assisted by Mrs. H. T. Reinhardt, received the members of the Research Club in the former's home on Seventeenth street. The following program was enjoyed:

Roll-call—Something of Public Interest to be Thankful For—

Talk—"Home Decorations"—Mrs. Irene O'Brien.

Paper—"Prominent Men of Today and Their Messages"—Mrs. Edna Stewart.

Preceding the refreshment course, further plans were discussed in regard to the coming of Mrs. Helen Woolley, Supervisor of Vocational Education in Cincinnati, who will come here under the auspices of the Research Club to give a public lecture in the High School on Friday evening, November 10. Tickets may be obtained from the club members or the school children. The club adjourned to meet the second Tuesday in December, when a passing party will be a pleasing feature.

Mrs. C. M. Sperry of John street has returned home from Battle Creek, Mich., where she spent sometime in the Battle Creek Sanatorium for treatment.

Mr. J. J. Sutton of Dayton, formerly of this city, is here for a visit with relatives and friends.

Just Hellenback is ill with diphtheria at the home of her parents, Mr. and Mrs. William Hellenback of Madison street.

Meet me at Nye's tomorrow.

On Saturday afternoon Miss Dorothy Dowling will entertain the Whittierettes in her home on Franklin avenue.

The members of Bighelow choir will rehearse Thursday evening at 7:30 at the home of the director, Mrs. S. H. Timmonds, 919 Second street, being held there on account of the Epworth League Convention at the church. At this time the members will rehearse the cantata, "The Triumph of Faith," which they will sing on Sunday evening, November 28, at the church.

Mrs. W. C. Ferguson, 711 Court street, is still receiving donations of cash, bottles and preserves for the box to be sent to the Episcopal Children's Hospital in Mt. Auburn, Cincinnati, of which she is the local secretary. All donations must be in as early as possible as the box must be sent Saturday.

The Thursday Five Hundred Club was entertained at luncheon today at the Mary Louise with Mrs. W. B. Hildebeck as hostess. The remainder of the afternoon passed with cards at the home of the hostess.

Mrs. Katherine Fitzgerald has returned to her home in Ashland, after a brief visit with her sister, Mrs. Isabelle Krieger, of Fourth street.

Miss Edna Hauck of Offshore street has returned home from a visit with relatives in Columbus.

On Monday evening Master Junior Hughes celebrated his seventh birthday anniversary with a party at the home of his parents, Mr. and Mrs. Harry Hughes, on Galia street. After the announcements of the evening, the following youngsters were served with refreshments: Pauline Eves, Anna Louise Schmidt, Ruth Butler, Mildred Stuart, Virginia Cole, Sarah Jane Gier, Madeline Hingst, Kathryn Hughes, Virginia Hughes, Charles Dack, Fletcher Bolen, Howard Bolen and Junior Hughes.

For pinning the donkey's tail, Charles Dorr received a favor and Ruth Butler was given a prize for finding the most peanuts in the peanut hunt.

Mrs. F. A. Bowser, 1114 Tenth street had as dinner guests Tuesday Mrs. Edgitt J. Knapp, a missionary of Ze Ze, Japan, and Rev. E. H. Duddy, pastor of the United Brethren church.

Miss Lala Hughes of Vanceburg and Mr. John Martin of Jackson were married Saturday evening at the home of the bride's parents, Mr. and Mrs. Daniel Hughes, in Vanceburg, with Rev. Walter Foley of the M. E. church officiating. Mr. Martin is employed at the Whitaker-Glessner plant and will reside in this city.

Sixty members of the Missionary Auxiliary of the First Christian church took part in the meeting Tuesday afternoon at the home of Mr. C. M. Hockland, on Timmonds avenue. An excellent program preceded the refreshment course.

A Terrible Goitre

Relieved for Troy Lady by External Home Remedy

Note: It would be illegal to publish these statements if they were not true. Mrs. Dot Cox, 2 No. Market St., Troy, O., says in her own home letter, the Troy Mirror Union: "I used Sorbol quadruple a year ago and it has completely relieved me of a terrible goitre. I was so afraid of death, could not see my eyes for fear of seeing, and my heart would feel like it would jump out. My throat would throb and choke me. Could not wash or sleep at all. Was in bed part of the time. I have been doing my washing and all my own work since last summer. My whole system is stronger and my throat does not bother me at all. I am as well as I was before I had goitre. If anyone cares to be relieved of a goitre, Sorbol Quadruple comes in small bottles containing enough for most cases. It will not stain your face. Does not interfere with regular work. Leaves parts in a beautiful normal condition. Requires 15 minutes daily."

Do you know where the purest and best flavored maple sugar comes from?

The flavor of Maple Karo tells you

Over a thousand tons of rich maple sugar from Vermont and Canada to make Maple Karo for the American family

The American housewife endorses Maple Karo this way:

Over five million cans were consumed last year. This is a greater sale, by far, of any kind of maple syrup sold.

If you are particular about the syrup you buy, and the price you pay for it—the new Maple Karo is your kind of syrup.

Perfectly delicious in rich maple tang—yet very moderate in price. So moderate that you can serve it every day, every meal. And all grocers everywhere have it.

Go to your grocer today. Get one can of Maple Karo. Try it just once. If you are not absolutely satisfied return it—and your grocer will give you back your money.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do what which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without any of the disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. See and see.

The members of the Woman's Relief Corps are making preparations for the tenth district convention to be held Thursday in the public library. At six o'clock the ladies will entertain the men of Bailey Post, G. A. R., for dinner in honor of Armistice Day, at the home of Mr. and Mrs. C. W. Rowe, 1628 Seventh street.

The Knights of Columbus will hold a card party at the club rooms Thursday night for the members of the order and their relatives and friends. Progressive coffee and fire hundred will be played from 8 until 10, followed by refreshments.

Word came from Columbus Wednesday that Mrs. C. W. Bierley continues to improve from a surgical operation which she submitted to in Grant Hospital in that city.

Brother Is Better

"Happy" Balaban, writing from Detroit, says that his brother James Balaban, structural steel worker, who was seriously injured several days ago in a fall from a building on which he was working in the Midland city, is now believed to be out of danger and will probably recover. The injured man is in a Detroit hospital.

Card of Thanks

We wish to thank our many friends and neighbors for the sympathy and kindness shown to us during the illness and death of our dear daughter, Addie Trinit. We wish to thank the choir for the music and Rev. Chas. Finkley for his comforting words. We extend our thanks to the neighbors, relatives and friends for the many beautiful flowers. We also wish to thank our relatives out of town for their kindness and flowers.

The big horse dashed once around the ring with triumphant Billy on his back bowing his acknowledgments on all sides and then down the alley where the performers made their regular exit.

The monkeys were their leader departing without waiting to be called, followed in quick pursuit.

When the show manager saw all the performers and even the clown coming running out of the ring right in the midst of their fourth act, he was naturally very greatly surprised and excited.

State Speakers Are To Address Farm Bureau Meeting Tuesday

At the annual meeting of the Soloto County Farm Bureau to be held next Tuesday morning and afternoon in this city state speakers will be on the program to give helpful talks.

The morning session to start at 10 o'clock at the Court House will be devoted to business, and a talk on "Co-operative Marketing, Particularly Live Stock." This talk will be made by L. G. Ketter, director of Marketing of the Ohio Farm Bureau Federation.

At 11:30 o'clock there will be a free lunch at the United Brethren church. The afternoon session will start at 1 o'clock at the church with Charles E. Scott of Hillsboro, a Highland county farmer, making a talk on "The Farm Bureau of Today, Its Past Accomplishments, How It Cooperates with the Grange, and the Future Possibility of such Cooperation." Mr. Scott is a farmer who knows farm problems and an enthusiastic Farm Bureau worker. All members who have not returned their cards announcing their intention of being present at these meetings and luncheon are urged to do so at once.

MASS MEETING CALLED TO FORM LAW ENFORCEMENT LEAGUE HERE

At a meeting of the Law Enforcement League Wednesday morning in Room 4, B. Hawk's office in the First National bank building, a resolution was passed calling a mass meeting to be held Sunday afternoon at 2:30 in Room 4, B. Hawk's office, Gallia and Office streets.

Members of all civic bodies in the city, women's clubs, city and county officials and the public are urged to be present at this meeting as a permanent organization will be effected and

a campaign started to wipe out whatever lawlessness that may exist in the city or county.

The committee named to map out a program of law enforcement, and organization includes Mayor Gableman, Judge A. Z. Blair, Rev. Charles B. Oakley, R. F. Kinkle and Supt. J. D. Hawk. It will get busy at once and will have its report ready for the mass meeting Sunday.

"We have a hard job before us but expect to form an organization that will see that every law will be rigidly enforced in Portsmouth and Soloto county," Supt. J. D. Hawk said Wednesday at the close of the meeting.

Supt. Hawk acted as chairman of the meeting and Rev. Oakley as secretary.

Those present were Mayor Gableman, R. F. Kinkle, Judge Blair, Judge Blair, Conrad Roth, Dr. O. D. Donaldson, J. M. Stockham and Messrs. Oakley, Kayser, Wolfe, Butler and Severinghaus.

ASHLAND MAN HELD ON MURDER CHARGE

SKOWHEGAN, N.H., Nov. 10.—Further particulars of the murder of Asa Entekken, station agent at Embden, by John Brown, 23, of Boston, Earl Morris, 22, of Ashland, Ky., and James Purcell, 18, of New Bedford, who have confessed the crime to Sheriff John A. Moores, were made known today.

Heaven Case, a farmer living next to the station, heard the agent cry twice, "You get out of here" and the blows of the hardwood sled stake striking his head. He was then outside on the platform. The fatal blow was struck by Morris with such force that the stake broke in fracturing Entekken's skull. The men then dragged the body into the station.

The station looked like a slaughterhouse. Blood was on the platform, side of the building, and a trail led where the men carried the body. The murder was done, apparently, as Medford Examiner Gloucester reports the Somerset Grand Jury.

The men did not attempt to hold up the agent or ask for his money, but attacked him without warning, say officials. It is said they had been slipped by a Boston employment agency to Kinco to work for the American Realty Company, but did not work long before starting back to Bingham. They walked from there to Embden. Being without money they planned to kill Entekken to get what he had.

Old Herbal Remedy Used For 40 Years In Relieving Diabetes

The most satisfactory results have been obtained in combating Diabetes by observing certain dietary rules and the judicious use of Warner's Safe Diabetes Remedy, an herbal preparation used with marked success for over forty years.

Following is a letter from a grateful heart:

"This letter is the best proof that I can still write. Your medicine is a miracle to me. My weight was reduced from 177 to 114 pounds when I left the hospital. I left there Aug. 6th in despair. Hundreds of people that I met said that I would never live to return to my studio. After leaving the hospital I saw your 'Ad.' in the paper. I began its use and at once commenced to improve, and now energy is saying to me that I look better than ever before. I tip the scales at 132 pounds and I am back working again to the astonishment of all. I feel splendid and people say I am looking better every day. I must tell you that every word I have written is true, and I can prove it by hundreds that know of my condition. Jules Friquet, 511 West First Street, Los Angeles, Cal."

Warner's Safe Diabetes Remedy is made from herbs and other beneficial ingredients and has been on the market 40 years, a true indication of its value. Get a bottle today.

Oil Struck In First Well Of Local Company

Word that oil had been struck in the first well was received Tuesday by Joseph A. Salmon of the Electric and Gas Company, incorporated by the local men sometime ago. Mr. Salmon received the word over long distance

from E. E. Steed, field manager for the Oil company. The farm on which the first oil was struck is in Carter county, Kentucky, but the company has several hundred acres of land leased in Carter, Elliott and

Rowan counties. H. B. Murray, secretary-treasurer of the company left today for the oil fields.

The well will be drilled a few more feet deeper and it will then be shut the shooting to take place in a few days.

The name of the company, Eleoro, is taken from the counties in which the tract land is located, the two first letters of each county being used.

\$25 worth of Genuine Pathe Records FREE

Where YOU Share in the Benefits of this Nation-wide Demonstration Sale

INCREASED production is one great need of America today. The Pathe Freres Phonograph Co., in common with other large industrial concerns is exerting every energy at its command to meet this economic necessity.

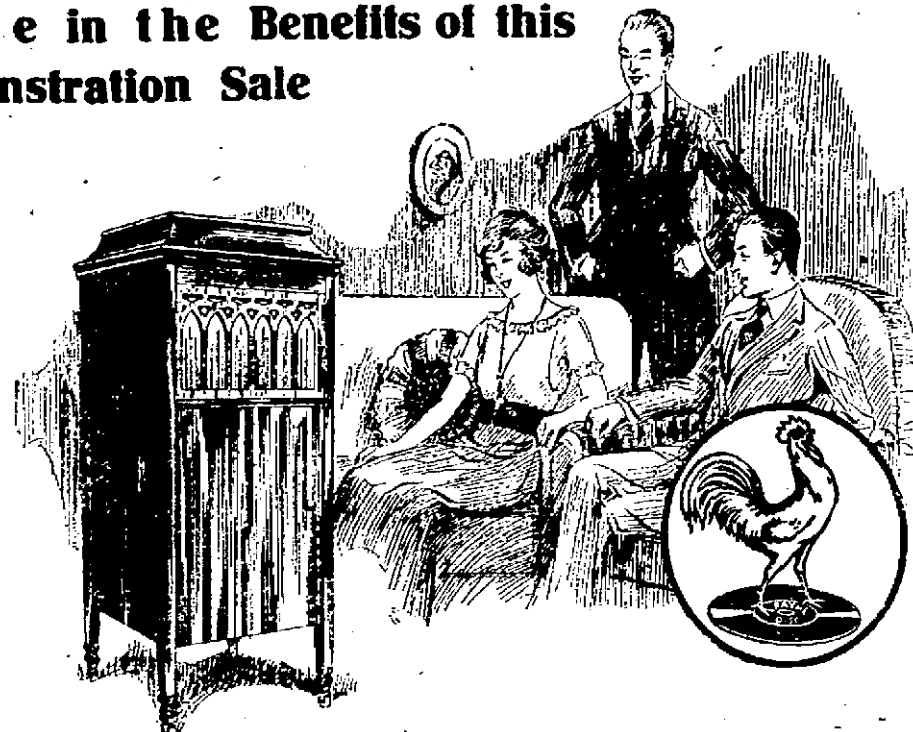

But increased production, without constant and equal distribution, would retard, instead of improve the situation.

Increased production, instantly distributed to and absorbed by the public, will do more to bring back and maintain, good old pre-war prices than any other one single influence.

And this is precisely what the Pathe Company and its dealers are endeavoring to accomplish through this Nation-wide Demonstration Sale.

The Pathe Freres Phonograph Co., backed by a constantly and enormously increasing demand for its famous Pathe Phonographs and Records has greatly increased its production by intensified selling throughout its nation-wide organization. Every factor in its great and growing business is concentrated on production—more production and yet still MORE PRODUCTION.

And now, in co-operation with its dealers, of which we are one, it has formulated this great demonstration plan so that its distribution will keep pace with its increased production and thus secure to you the fair and honest price and all of the benefits you may enjoy during this unusual sale.

COURT HOUSE

Campbell Seeks Divorce
Roch W. Campbell, blacksmith at 22 S. & W. shops, living at 1108 S. Gay street, charges wife with adultery in his suit for divorce from Beatrice Campbell, filed in common pleas court Tuesday through Attorney W. R. Sprague.

The plaintiff seeks to recover on a claim of nearly a quarter million dollars as damages and for extras on its contract of building the railroad through portions of Scioto and Pike counties. The case has been set down for hearing starting Dec. 1, and it is expected the trial will require more than two weeks.

Arguments On Demurrer Heard

Arguments on a demurrer to the recently filed by the defense in the damage suit of The Robert Grace Manufacturing Company, of Pittsburgh, against The C. & O. Northern Railway Company, were heard by Judge Thomas in common pleas court Wednesday morning and then taken under advisement.

Tired and Run-Down Business Men

Use Lenitone, the Scientific Energy-Builder

Fatigue creates poisons in the blood. It is a poisoned means a dulled brain and a body clogged with wastes. No man can afford to be hampered by such inefficient mental and physical machinery. If you are tired and run down, make up your mind to remedy the condition immediately. You will profit by it. But don't take medicine. Take Lenitone, the Scientific Energy-Builder. It contains every chemical element necessary for perfect nutrition, and is therefore an energy-builder. Is delicious to the taste, too. Is taken with milk or water in beverage form.

Buy Lenitone from your druggist. Prescribed uses outlined in the pamphlet enclosed with every package. Excellent for infants, undernourished children, and convalescents. The Lenitone Laboratories Co., Cleveland, Ohio.

ARMISTICE DANCE TOMORROW NIGHT

The Ben Hur will celebrate Armistice night by giving a big dance in their hall beginning at nine o'clock and ending at one. All are welcome. Journey's orchestra will furnish the music, and

advisement. Attorneys Henry T. Bannan and Judge Blair appeared in support of the demurrer which was opposed by Attorney Fred Rector, Columbus; Frank Dismore and Floyd Williams, of Cincinnati; and Miller and Seal, of this city.

The plaintiff sued to recover on a claim of nearly a quarter million dollars as damages and for extras on its contract of building the railroad through portions of Scioto and Pike counties. The case has been set down for hearing starting Dec. 1, and it is expected the trial will require more than two weeks.

Adjudged Insane
Dayton Vanderort, aged 39 years, son of William Vanderort, Rush township farmer, was adjudged insane on an honest held in private court Tuesday and Judge Gilliland ordered him committed to the Athens state hospital for treatment.

The hearing disclosed that while the young man has shown signs of mental trouble for sometime yet only recently did he display any violence. The patient will probably be taken to the institution Thursday.

Winters Granted Divorce
On the grounds of neglect and cruelty S. C. Winters, manager of the Business Men's Credit and Collecting Bureau, with offices in the Kricker building, was Wednesday granted a divorce by Judge Thomas in Common Pleas court, divorcing him from Lena A. Winters, whom he married June 11, 1911.

Evidence was submitted in the case last Saturday and then continued to the court for further investigation. The defendant is said to be now living in Cincinnati. Winters was represented by Attorney W. R. Sprague.

Dietz Will Filed
A will executed on August 10, 1920, by William Dietz, former conductor on the Cincinnati division of the N. & W., who died recently at the home of a sister at Steubenville, was filed Tuesday for record in the local probate court.

The testator died leaving one brother, Adam Dietz, whose address is un-

known, and four sisters, Christina and Elizabeth Dietz, Columbus; Anna Dietz, Hamilton; and Rose Dietz, Steubenville, as his next of kin.

Alimony Denied
Hearing on an application for temporary alimony and custody of children in the case of Beatrice Carpenter, 810 Chillicothe street, against other Carpenter, steelworker, before Judge Thomas in Common Pleas court Wednesday, resulted in the court denying the application when the evidence disclosed that the plaintiff had only recently returned to her husband and children, whom she abandoned some months ago to go with a carnival company.

Mrs. Carpenter, in her suit for divorce and alimony instituted Tuesday, alleged cruelty, declaring that Carpenter beat her and locked her out of their home.

Attorney Ralph Arty for plaintiff and Attorney Harry Ball for Carpenter.

Revival Is Success

The revival meetings, now being held at the Findlay Street M. E. church, are growing in interest with each added night. The outlook presages a successful conclusion.

Mrs. Bertha Davis, of Columbus, O., is the evangelist, who is conducting these meetings. She is rendering splendid and successful service. The prayer service begins at 7 o'clock p. m. and the preaching begins at 7:35. Several persons have requested prayer and some have come to the altar seeking salvation. The evangelist is wonderful in song, which she intersperses with her preaching to good effect. Those having opportunity should not miss hearing this gospel messenger. The public is invited not only to be present, but to take part also in the

Everything In Heating

Radiant Fires

Everything In Sheet Metal

We do not claim to have solved all the problems of poverty and distress in Portsmouth. These problems are as old as the world and they have not been entirely solved anywhere in the world.

We do not claim that our public health work meets ALL or even the largest part of the need.

We do not claim that our recreation programs provide for every boy and girl in the community.

BUT WE DO claim that we have made very real progress in developing a public welfare program which is worth every cent it costs the city.

We can truthfully say that 435 families came to us last year for assistance in working out their problems or "getting back on their feet" again.

We can tell you that your support made possible medical attention and nursing service for 428 patients.

Three hundred school children were treated.

Seventy-five cases of tuberculosis were supervised.

Ninety-five free operations were provided.

Seventy-five children were vaccinated.

Thru educational methods people were taught "how to stay well."

Fifty under-nourished and feeble children were taken to the Fresh Air Camp.

Venereal disease has been reduced thru the extended work of the Venereal Clinic.

One hundred and five girls—many of whom were without friends—were given special care and assistance in getting a "new start" with a real chance for success.

The Child Welfare Department straightened out difficulties in over forty families, which had been brought into Juvenile Court. Two hundred children were represented in these families. Three babies were rescued from bad home conditions and placed in hospitals. One blind baby was taken to the Boston Home for Blind Babies. Artificial eyeballs were provided for another blind child. Medical, Surgical and hospital care were procured for others.

Six public Playgrounds under supervision gave play space to over one thousand children every day during the summer.

Fourteen Troops of Boy Scouts held regular meetings, took part in Public Movements such as the Clean-Up Campaign, decorated graves on Memorial Day and sold Red Cross Seals. Athletic contests, public exhibitions, baseball and basketball leagues were held during the year and a summer camp for Scouts was conducted, during the months of July and August.

The Girl Scouts now enroll one hundred and fifty girls, meeting regularly in public school buildings. In these meetings effort is made to build up character, promote patriotism and good citizenship. Outdoor activities, such as hikes, picnics and athletic sports are a part of the work and the Girl Scout Camp held during the summer was a great success. Pageants and Festivals were given before several thousand spectators. Clubs were formed for working girls during the winter months.

The Community Service co-operated in the reorganization of the Industrial Baseball League, in the organization of the Wholesalers and Manufacturers Leagues, and also in the organization of the Volley Ball League for business men. These leagues are self-supporting, and cost the subscriber nothing.

We do not claim perfection—do you know anyone who can?

BUT WE DO CLAIM that every worker in the Bureau of Community Service has given untiring, sincere and sympathetic service in meeting these human needs of Portsmouth.

The record speaks for itself.

Is it a public service—not a "charity?"

Do you want this work continued and extended next year?

(This advertisement is provided by a friend of the Bureau of Community Service)

THE HAND OF HELP

THE bureau of community service is conducting, this week, a soliciting campaign for funds to conduct its operations for the coming year.

We wish we had some magic screen, upon which we might throw all the work of this institution, so it would not only be visible to the eye of every resident of Portsmouth, but that the scope and spirit thereof might be properly and clearly understood.

To help, however, to that, understanding let us say that the bureau is not a charitable society, as charity is ordinarily understood, devoting itself to the habitual relief of poverty and destitution, by feeding and clothing. True enough it does such work as immediate relief, but its endeavor is to go further than that, to put the weak and the unfortunate on their feet and to teach the ignorant a better standard of living, to build up a stronger and more helpful race and a better and brighter community generally.

In other words its activities take into a wider and more lasting field. For instance during the past year it ministered to 435 families, the victims of misfortune, ignorance and environment, sometimes afflicted singly, sometimes by all three conditions. It not only furnished relief for the body but it sought to teach how that body could be better guarded against disease. Many of these ministrations were direct illustrations, houses were cleaned up, clothing was washed, bodies were bathed, simple rules of sanitation worked out and mothers given practical instructions in the care of babies.

Something near five hundred persons were treated, many attended upon, and scores saved from horrible affliction through life and perhaps, the loss of life.

The bureau has promoted a stronger and more vigorous public physique by athletic training for boys and girls and the establishment of divers play grounds for children.

It has done much to save unprotected maidenhood from debasing associations.

It does not meddle in religion and does not get its inspiration therefrom, but does follow the humane principle of doing the best possible for the fellow man.

In a way it is, perhaps, unfortunate that the sum of its efforts and the good results it attains can not be visualized, but he who loves his fellow man, who believes that the noblest and best work is to lend an up-lifting hand to the lowly and the unfortunate, no matter from what cause, can understand and show his appreciation and sympathy by contributing the extent of his ability in supplying the funds that are essential to its maintenance and its work.

OLD FASHIONED "SOC IABLE" IS SUCCESS

The "Old Fashioned Sociable" at the First Presbyterian church last evening was a pronounced success. It was a social gathering of the old-fashioned kind, with a program of entertainment and a social hour. The program consisted of a song, a recitation, a play, and a social hour. The social hour was the highlight of the evening, with many interesting conversations and a general air of good fellowship. The church was well attended, and the evening was a most enjoyable one for all who participated.

NEW-YORK - Day-By-Day

NEW YORK, Nov. 10.—(By Davis) The "New York Times" is today a most interesting and readable paper. It contains a wealth of news and information, and is well worth a read. The paper is published daily, except on Sundays and public holidays. It is one of the most influential newspapers in the world, and its reports are widely read and trusted.

THE DUSTED TROUSERS

A little fellow sat on a doorstep, looking miserably at his dusty trousers. He had been out for a long time, and his clothes were in a state of disrepair. He looked at his trousers with a sad expression, knowing that they were no longer fit to wear. He had tried to clean them, but to no avail. He was now sitting there, looking at his dusty trousers, wondering what to do next.

THE LONG SLEEP

Question—(On questionnaire sent to hospital)—Do your internes give any sleep? Answer—(From a well known hospital)—Each interne must attend the patients for four to six months which will give them about 5,000 anesthetics.

Where She Heard It

Little Theda Morgan said, "Oh, the devil," right out loud when the A.D.S. story was meeting at Morgan's place. Mrs. Morgan said, "Why, Theda, why did you ever hear such language? Theda innocently replied, 'Don't you remember what you said yesterday, mamma, when you dropped the curtain?'

They Can Usually Tell

One fellow asked another "Have you ever heard anything about a man's face for telling when a man is lying?" "Sure," was the answer. "Have you ever seen one?" "Seen one?" said the fellow. "By God, I married one!"

A New Year's Motto

"Time is money." Too slow for those who wait. Too swift for those who fear. Too long for those who grieve. Too short for those who rejoice. But for those who love, 'Time is eternity."

The Old Ones are the Best

A certain surgeon who was very young and also rather shy was invited to dinner by a lady who was at least fifty, but frugal enough for twice. At dinner she asked the young surgeon to carve a chicken, and, not having done so before, he failed lamentably. Instead of trying to cover his confusion, the hostess called attention pointedly by looking down the table and saying loudly:

Not Always

"Worth," in proper names, as in Kentworth, Edgeworth, etc., signifies that the town stands on a tongue of land.

Treat It Rough

"Doctor, a week ago you gave me something that you said was good for my dyspepsia."

"Yes."

"Well, now suppose you give me something that's bad for it. I think it's been humbugged enough."—Boston Transcript.

No Treat

Mal—Did the doctor treat you?
Helon—No; he charged me the doctor's fee.

DO MARRIED MEN MAKE BEST HUSBANDS?

This was the momentous question debated Tuesday evening at the annual meeting of the Trinity Men's Club. The question was "Do married men make the best husbands?" The debate was held in a hall filled with men, and the atmosphere was one of intense interest. The speakers on both sides presented their arguments with great skill and wit. The question was ultimately decided by a vote, and the results were announced with much fanfare.

NEW BOSTON

The special meeting to be held at the M. E. church this evening promises to be a very interesting one, as several interesting speakers are on the program. The meeting is open to all, and is expected to draw a large crowd. The speakers will discuss various topics of current interest, and the evening is sure to be a most enjoyable one.

AMERICAN RED CROSS NURSES MURDERED BY BOLSHEVIKI

LONDON, Nov. 10.—Captain Emmet Kilpatrick, representative of the American Red Cross in South Russia, and two nurses were brutally killed during a Bolshevik cavalry raid on Salkovo station, says a Sebastopol dispatch to Reuters, limited.

SEBASTAPOL, Nov. 10.—Twenty American Red Cross workers are believed to have taken safe refuge in the Crimea after the recent capture of Captain Emmet Kilpatrick. Among them is Captain Miller Davidson, of Ashland, Ky.

WASHINGTON, Nov. 10.—Reports reached the state department today that Captain Emmet Kilpatrick, of the American Red Cross, and C. A. Arling, of the Monrovia Relief Society, had been captured in the Soviet colonies in southern Russia, but no mention was made of the possible death of either one. It was believed that the recent assertion of the Soviet government that an "American mission" headed by "General Morel" had been captured by their troops, was based on the capture of Kilpatrick.

Was Country Publisher
Kilpatrick was last seen, the international, at Novosibirsk, October 25. Mr. Arling, who is founder of the Monrovia Relief Society, landed at Sebastopol, October 25.

Kilpatrick, formerly publisher of a country newspaper, served with the American army in France as lieutenant of field artillery, and after the armistice as chief of the supply division of the American commission to negotiate peace. He obtained his discharge from the army in Paris in September, 1919, and became connected with a mission with the peace commission.

In Lithuanian Army
When the commission was disbanded, Kilpatrick joined the Lithuanian army as captain, along with a number of other Americans, and saw several months of active service on the Lithuanian-Bolshevik battle front. When the fighting ended, he asked for his discharge and returned to Paris in 1920, and he ordered first to Constantinople and then to southwest Russia.

In the records of the war department Kilpatrick's next of kin was shown as Libia M. Kilpatrick, his sister of Camden, Ala.

Kilpatrick was last seen at Novosibirsk on October 25, stripped to the waist in bitter zero weather and being led away by Red cavalry leaders, said the state department's official announcement, given out before

Housing Probers Open Meeting In Chicago

Chicago Plans Armistice Day Celebration

CHICAGO, Nov. 10.—Plans for Armistice day tomorrow were announced today with a proclamation issued by the mayor calling upon citizens to observe the anniversary. At eleven o'clock in the morning the city will pay one minute's silent tribute to American soldiers who died in the war.

At a signal from traffic policemen all vehicles and street cars will stop moving. Pedestrians will halt and face the east. Bugles scattered about the downtown district will advance to the middle of street corners and sound taps.

The moment will be preceded by a unit of factory whistles, bells, sirens and horns.

American Goods Big Favorite In Norway

WASHINGTON, D. C., November 10.—The popularity of American goods in Norway is described in a report to the department of commerce by Trade Commissioner Nets A. Bengtson, which says that American automobiles and trucks are so predominant that they give a distinct American touch to street traffic in many of the cities.

Discussing the opportunities for American products in the Norwegian market, Commissioner Bengtson reported that in general the high quality of American tools and mechanism was conceded and the expression was frequently heard that American goods ranked first in quality although some what higher in price than the same type of goods from the United Kingdom, Sweden or Germany.

Deny Boise Penrose Has A Relapse

PHILADELPHIA, Nov. 10.—Publicist reports that United States Senator Boise Penrose, who has been ill for a year, has had a relapse, were denied today by one of his physicians who said there was no material change in the senator's condition.

Besides his other ailments the senator is suffering from neuritis, which at times gives him much pain. The fact that he is not seeing visitors at this time is believed to have given rise to reports that his condition is worse.

Senator Penrose is making preparations to return to the senate after an absence since last November. He has leased a large apartment in Washington.

Graeco-Roman Baths Of U. S. Senate Being Cleared Of Cobwebs So Senator Can Enjoy Them

WASHINGTON, Nov. 10.—The Graeco-Roman baths of the United States senate, installed nearly eight years ago, but never put into service, are now being cleared of the cobwebs and stains of time, and will be in shape to offer their luxuries of steam, plunge, shower, and electricity to the members of the new senate when it assembles.

Charges of extravagance were aimed at the baths in congressional debate when the power of administration last swung from Republican to Democratic and as the result the baths installed in the then new senate office building, were shorn of their expensive equipment, heretofore their attendants and left to plume. The marble slabs, Turkish rugs and steam proof tables and chairs were turned over to government hospitals and only the marble shells, and nickel fittings left in place.

Now, however, the baths are coming back, but under a new plan. Members of the senate themselves will pay a large part of the opening expenses, and a special unofficial committee has taken charge of the assessments which will be levied against each user in proportion to the service he expects. The baths will be somewhat less gorgeous than the original plan anticipated, but in their luxury and completeness will still have claim to comparison with private club installation.

Senators will be able to steam themselves out in a series of marble hot rooms, regulate themselves on the drying room cots, invigorate under one of the several types of nozzle and branch showers and float in the swimming size plunge.

They also can try massage, the electric cabinet or the prickling shocks from the static machine. Installation of the baths cost many scores of thousands and some senators at least feel that the waste of letting the equipment lie dormant is as great as any expense that may be encountered in putting them into service.

ENORMOUS WASTE OF GOVERNMENT FUNDS, ALLEGED

WASHINGTON, Nov. 10.—Charges which reported "government owned" that the activities of the shipping board have resulted in an enormous waste of government funds are contained in a report submitted to the house committee on shipping board operations by two former employees of the committee that companies operating government vessels had "in some instances" sold supplies to the ships at prices ranging as high as 50 percent above wholesale costs.

The investigators also reported to the committee that companies operating government vessels had "in some instances" sold supplies to the ships at prices ranging as high as 50 percent above wholesale costs.

Mr. Richardson, one of the investigators, was formerly connected with the federal trade commission. He states, in presenting the report, that it was "designed to be constructive and helpful to the shipping board, rather than destructively critical."

The report charged that payrolls had been padded by some of the firms which repaired "government owned" vessels.

The investigators grouped their observations under seven general heads, representing various phases of the shipping board's activities. They declared that improperly drawn contracts and cost the government a large sum, that some divisions of the board had failed to cooperate, efficiently and that others had failed completely to function properly.

The report charged that payrolls had been padded by some of the firms which repaired "government owned" vessels.

NEW YORK, Nov. 10.—Commander A. B. Clement, assistant to Admiral Benson, was summoned as one of the witnesses today before the congressional committee investigating alleged corrupt practices in the United States shipping board. A. M. Fisher, clerk and statistician for the committee, and John F. Richardson, special investigator, also were expected to continue their testimony concerning the report of a year's investigation by them, which figured prominently in yesterday's testimony.

"Ole Clothes" Merchant In Curbstone Market Hard Hit By Lack Of Customers

NEW YORK, November 10.—Fashionable uptown clothiers who are moving sluggish stocks by means of elaborately advertised "reduction sales", have nothing in the way of business worries on their humble brethren of the "ole clothes" curbstome market in Bayard street, off the Bowery. Itinerant members of the "curb" declared today.

Despite a lively cut rate war, these picturesque dealers in second and third hand clothes asserted business has come almost to a standstill.

Some blame the trouble on prohibition, which has dulled many a "boring mood" and others attribute it to the passing of the era of extravagant buying.

All agree, however, there is a surprising lack of customers. Silk shirts, which have been in demand since the armistice was signed, they say, are out of favor. Fancy shoes, silk socks and gaudy cravats are no longer in demand. One street corner merchant cut the price of a \$45 overcoat to \$15.65 in the course of half an hour's argument, but couldn't make a sale.

The financial depression not only has hit the retailers, but the wholesale dealers as well. It was said.

Huntington Hi Will Play Charleston Hi Saturday

HUNTINGTON, Nov. 10.—Next Saturday afternoon, at 2 o'clock, another gridiron battle, labeled "Classic," will be presented at League park, when Charleston High comes to this city for their annual championship struggle with "Turk" Wilson's Red and Blue warriors. It is easily the biggest home game of the season.

Charleston is coming to this city with one of the strongest lineups that ever represented the capital on the gridiron. The visitors have an all-star team, if there is one, and up to the present time they are undefeated. Hocco Gorman, coach of the Red and Blue, has his team traveling in high gear, the only time they have even hesitated was when they went to the mat with Wheeling High in a tie contest. Up at Charleston the fans are not worrying about the final count, it is just a question of what the score will be with them.

Cobb Says New League Is Result Of Jealousy

SAN FRANCISCO, Nov. 10.—Ty Cobb, star outfielder of the Detroit team, declared today that the formation of the "new National League" was due to the jealousy of the National League over the success of the American League under the constructive leadership of Ben Johnson. Cobb said that the new league would be a failure from a business standpoint.

"I am for the American League and I am for Ben Johnson," said Cobb. "From one of the players' viewpoint it looks to me as though the whole rumpus is due to politics and personal animosities on the part of the minority owners who have withdrawn. Ben Johnson's administration has been a constructive one."

Will Play In Florida

TAMPA, FLA., Nov. 10.—Roger Hornsby of the St. Louis Cardinals, leading batter of the National League last season, Huggins Hargrave of the Cincinnati Reds and Al Rothorn of the St. Louis Browns are among the major league stars who will play baseball this winter with the Florida west coast winter league.

A number of minor league players also will be in the lineup of the Tampa, Tarpon Springs, Sarasota and St. Petersburg teams which make up the league. The schedule calls for an eighty-four game season opening November 18 and closing February 22.

Hornsby is captain of the Sarasota team. Hargrave will be in charge of the St. Petersburg club, while Rothorn will be one of the Tarpon Springs players.

MINOR LEAGUES MAY LET THE BIG FELLOWS SETTLE THEIR OWN WAR

KANSAS CITY, Nov. 10.—With the opening shots fired in the scramble to win the support of the National Association of Minor Leagues, August Herrmann, owner of the Cincinnati Nationals and a leader in the organization of the new twelve club league, is to address the convention of minor leagues here today in an appeal for endorsement of the Lasker plan for baseball reorganization.

Mr. Herrmann will attempt to offset the favorable impression created among the minor league leaders yesterday by Ben Johnson, president of the American League and George W. Miller, the American league attorney, who urged the minors to appoint a committee of three to meet with a similar committee from the major leagues in a final effort to avert a baseball war. President Johnson in opposing the Lasker plan told the minor leagues that the management of baseball should remain in the hands of men who have devoted their lives to the sport, instead of being turned over to men outside the game.

What action the minor leagues will take in the major league dispute remains problematical, but it is expected they will consider both plans in executive session and then refuse to take sides in this issue, leaving the threatened war to the major leagues for settlement.

The proposition made by President Johnson to the minor leagues yesterday, promising them equal representation in the formation of a new national commission, sharing equal power with the National and American leagues, seemed to be favorably received. For a score of years the minor leagues have fought for such representation, but without success.

BIFURCATED ROBE IN BATIK DESIGN

Bifurcated garments for women, especially for negligee purposes, are becoming more popular every day. They are extremely comfortable and do away with the necessity for petticoats or bloomers. The dainty suit is made of purple silk crepe with a blouse which has hand button work on it and deep fringe trimming.

United States' Bad Lands. This is the translation of "Minutiae Terres," the term used by the French-Canadian trappers to describe these regions of unconsolidated rocks that have been extensively eroded. Bad lands occur on arid plateaus formed by horizontal strata of loosely cemented sands and gravels. The best examples of such regions are found in the upper portion of the Missouri drainage basin in the vicinity of the Black Hills. Some are to be found also in Colorado, Arizona, New Mexico and Texas.

At 125 Degrees in Death Valley. At Greenland ranch, in Death valley, California, the air temperature, as recorded by a tested maximum thermometer exposed in a standard instrument shelter, rose to 125 degrees higher on 21 days during June, and on every day during July, 1920. The extreme maximum was 127 degrees, recorded on the last day of July. On July 10, 1912, the temperature there reached 134 degrees Fahrenheit, the highest officially recorded air temperature in the world. From the Bulletin, American Meteorological Society.

Clothes and Cleanliness.

It is true that clothes were more picturesque in past ages and that men as well as women dressed in gorgeous apparel. The nobleman was as fond as his "lady love" of rich fabrics and ruffles and the clasp that held his flowing plume to his velvet hat flashed with real gems. But here is where civilization takes a hand. Compare the cleanliness of the men of the past with those of the present. In the sixteenth century French gentlemen changed their linen once in two weeks, and even at that time were deemed recklessly extravagant by the English for so doing.

Rheridan's Brummeis, of the Masonic League are still the boss bowlers of the organization, thanks to the fact they took two out of three from 224 Leach's Aurora, at the Play House alleys, last evening. The Brummeis won, not because of any good score on the part of the captain, but because Joe Updegraff and Frank Johnson came through in the big league style.

The two boys were in particular fine form, the latter getting 505, while Mr. Updegraff shot for 501, the first time in his bowling career as a bowler that he crossed the coveted line. And now that Joe is over, he like Caleb of old, or Joshua, either for that matter, sees no reason why he should not go up and possess the land. Guess that ball has a whole lot to do with it. William Ellsworth Clayton, the real Brummeis, was in fine shape, too, and while he did not get 500, he was pretty close to the mark. Charles Duhler was next in line with 482, and then came Dallas Lemon with 477. While his total was not of excess baggage proportions, nevertheless Dr. Dan Lloyd deserves special mention for his fine work in the last game. He shot 152, by January and looked like he had come back to stay. He will get on yet, if he don't. Captain Leach like a captain Sheridan, had a awful night of it. The latter had nice splits—hard luck. The scores:

In the Selby Bowling League Tuesday night the Wreckers wrecked the Office force, taking three games with big margins. The Office force was away below the average, not being able to get out of the 600 class. MAY LEGALIZE BOXING

CHICAGO, Nov. 10.—A bill to legalize boxing in the state was ready to be presented to the city council today by Alderman Joseph C. Kostner. The bill as a whole is similar to the one drawn up by the aldermen last year and is to be presented in the state legislature by its sponsor, after submission to the city council for endorsement.

It provides for a state athletic commission of three men to be appointed by the governor. The bouts shall not be longer than ten rounds, and six ounce gloves must be worn.

Millions Trying.

"Millions of people," we quote from the motion-picture advertising, "can write stories and photographs and don't know it." We have no wish to quarrel with the assertion. We merely suggest that those responsible for the motion pictures get hold of some of them, or contention hold that those now writing for the motion picture drama cannot do it.—Philadelphia Public Ledger.

Food Supervision.

The importance of food supervision as a measure of preventive public health is obvious. The average citizen does not realize how deeply he is indebted to the public health authorities on this point alone. Were it not for this supervision, plagues of pestilence would exact a fearful toll from our citizenship in the form of suffering and death.

Save Telegraph Poles.

Of 1,555 telegraph poles in the Montgomery-New Orleans line, which were pressure-treated with a light creosote oil, 1,040 poles were still sound after 10 years, says the American Forestry Magazine. In 91 per cent of the cases of decay, the fungi had entered the wood through cracks and shakes.

ATHENS, O., Nov. 10.—The Athens high school football team, running to form in defeating Jackson Saturday 19-0, is undergoing the most strenuous training of the season this week in preparation for the game with Portsmouth at 1:30 Saturday.

Coach Mackie for the first time this year is making a complete change of signals and formations. The Athens coach realizes that both Portsmouth and Huntington have scouted the Athens eleven and he is preparing to spring a big surprise upon the invading team.

Portsmouth football team is an ancient enemy of Athens eleven, and a hard, fast game is expected when the two teams clash Saturday. For the first time since these two teams have met, the odds this year favor the Athens grid squad. Many followers of the local team are betting that Portsmouth will be defeated by three points. Portsmouth will have the advantage in weight but the local team is disconcerting that because they have been for outwitted in every corner this season.

Portsmouth has been twice defeated this year by Rio Grande and Dayton Steel, Jackson who played here Saturday, held Portsmouth to a 13-0 score earlier in the season. Coach Mackie used 25 men in the Jackson contest, otherwise Athens would have piled up a tremendous score against the Jackson team.

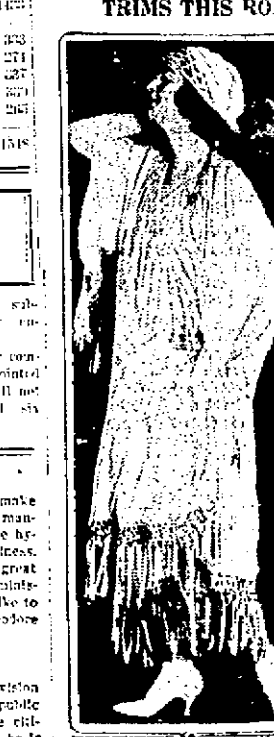

Portsmouth always comes to Athens determined to give its best and the Red and Black eleven will enter the game without a particle of over confidence and with a terrific fighting spirit that has carried them through all the games undefeated this year.

STATE AND ILLINOIS TO BATTLE FOR CHAMPIONSHIP

The actors for the classic drama of heavily finished the rivals of last year's Scarlet and Gray tee in the last 1920 Big Ten football were chosen Saturday. The Illinois and Ohio State teams are the favorites to win the championship. The game will be played at the University of Illinois on November 20. The Illinois team is the defending champion and has a record of 10 wins and 1 loss. The Ohio State team is the runner-up and has a record of 9 wins and 2 losses. The game is expected to be a close one, with both teams having strong defenses and powerful offenses. The Illinois team is led by quarterback Earl Fudge, and the Ohio State team is led by quarterback Paul W. Harte. The game is scheduled for 1:30 p.m. on Saturday, November 20, at the University of Illinois stadium in Urbana, Ill.

Behind The Vaudeville Scene

By Frederic J. Haskin

WASHINGTON, D. C., Nov. 10.—What goes on behind the scenes in the movies and the drama is an old story, but the spotlight is rarely focused on the hidden side of vaudeville.

The vaudeville player differs from the actor in a three-fold way in that he has no manager traveling with him, no one to take care of his trunk, scenery, and music. Nearly every week he plays on a different stage, with different furniture about him, and a different orchestra in front, and if anything goes wrong with his act, he is responsible.

If you watch the stage entrance to a vaudeville house any Monday morning, you will see the actors, for the week going in to rehearsal. About eleven o'clock they begin to drift in and wander about the stage, consulting the property man and the electrician, talking dressing rooms, renewing acquaintances with other players, who happen to be on the bill that week. The electrician goes about forcing down on a chart which ones want a spotlight, or colored lights, or any other special effect. Carpenters and stage hands begin rolling down drops, painted like forests and city streets from the dim upper regions.

The property man has received in advance from each set of actors a plan of the scene showing what properties will be needed. If a bust of George Washington, a red banana, a handkerchief, or a special curtain is used in an act the actors carry it with them. But ordinary furniture and settings are supplied by the theater.

The plan which the property man holds, perhaps calls for "Studio full stage. Two telephones, telephone bell, three gold chairs, piano lamp, curtains at window." The property man says these are ordinary pieces of stage furniture and can all be got out of the property room just off the stage where "live" props—those often used—are kept.

A Hard Setting

The plan for the next act, however, calls for a colonial kitchen.

"Hardest kind of a set to get together," remarks the property man. "Have to go up to the store room."

An elevator shoots us up to the fifth floor of the theater, to a room stocked with well-equipped sets of colonial, hand furniture, etc. It also has a spinning wheel from under a pile of wicker porch chairs, and a gentle, flowered back of a throne chair, all red velvet and gilt paint.

"I made that throne," says the property man. "Took the legs of an old square piano for the legs, and the pedals for the arms. I made this grand father's clock, too," and he points to a tall, wooden, card-board-faced clock, which at a few feet would certainly deceive any one.

"I've got to get the main apparatus while I'm up here," he mutters from the depths of a heap of chairs and tables. "Here it is. You see it's a round wooden pan with a handful of shot in it. When you rattle it around it sounds just like rain. For sure we use this wire netting box with oyster shells inside. You rock it steadily back and forth to get the effect of the roll of the waves. We bang a bass drum for thunder, and drop this bucket of glass and iron scraps for a crash off-stage. To get the effect of approaching horses' hoofs, we beat two coconut shells on a carpet for turf, or on a piece of concrete for street."

"Ever see stage books?" We take a round piece of wood like a broken handle, and split it, and paint each half to look like the back of a head. The halves are glued to the slivers of a book case. Most of our props are bought, though.

A Rehearsal

When we descend the stage, looks and sounds more chaotic than ever. For rehearsal with the orchestra has just begun. A rowboat is being put together by a stage hand under the direction of

Questions AND Answers

Any reader can get the answer to any question by writing The Portsmouth Daily Times, Editor, 22 E. Main, Room 201, Portsmouth, Ohio. The office applies strictly to information. The editor cannot give advice on legal, medical, and other such matters. It does not attempt to undertake elaborate research on any subject. Write your questions plainly and briefly. Give full name and address and advise two copies in stating the return postage. All replies are sent direct to the inquirer.

Q. Why is the walking fern so named? **A.** B. J.

Q. The most interesting characteristic of this species is found in the way in which the fronds arch over until they touch the earth where they root and form new plants. Some of our other ferns occasionally produce plants in this way, but in these species it is a regular habit. The new plants grow up, repeating the process of arching, and so the original plant is surrounded by quite a colony of its own offspring without the intervention of spores. The connections between them are slow to die, and it is not unusual to see three or four generations linked together.

Q. I can't imagine that has a belt that slices a great deal. What should be done? **A.** M. H.

Q. The Bureau of Standards says that there are a number of lost drawings of the architect which will contain the missing information. However, if the best slips, it is an indication that it is being called upon to carry more power than it was intended to carry. A wider belt may be needed.

Q. Which river has the greatest discharge, the Mississippi or the St. Lawrence? **A.** L.

Q. The St. Lawrence has a far greater discharge. The average discharge of the Mississippi is about 600,000 cubic feet per second, while that of the St. Lawrence is approximately 1,100,000 cubic feet per second.

Q. What does a battleship cost? **A.** E. J.

Q. The Navy Department says that the cost of modern battleships is about \$22,000,000. Of this amount \$21,000,000 is for machinery.

Q. What is a round robin? **A.** H. S.

Q. A "Round Robin" is a document signed by a number of persons in which no one is named as the originator of the idea. Formerly documents of this nature were signed in a circle.

Q. Please give me information concerning the wreck of the steamship "Independence." **A.** A. P.

Q. The vessel "Independence" sank February 16th, 1918, off the coast of Lower California, and 140 people were lost.

Q. Who invented the depth bomb? **A.** E. J.

Q. This invention is credited to W. T. Hulse, of Swedish nationality. Such a bomb is loaded with from 200 to 300 pounds of high explosive, generally T. N. T. It is carried in a special apparatus at the stern of a ship and can be released instantly. It is provided with an appliance set to go off automatically at the desired depth.

Q. Which Senator has served the longest? **A.** J. W. A.

Q. The ranking members of the Senate, having had the longest continuous service, is Henry Cabot Lodge, who served his first term in 1893.

Q. Is the tomato a vegetable food? **A.** J. W. A.

Q. In proportion to its bulk the tomato has not a high food value, as it contains such a slight percentage of water. However, the tomato is recognized as a wholesome article of food. It contains 94.5 per cent of water, 0.5 per cent of protein, 0.5 per cent of fat, 4.5 per cent carbohydrates, and 0.5 per cent of ash.

Q. What are the limits to the different weights of boxes? **A.** C. O.

Q. We are giving you the scale of weight limits for boxes as recommended by the American Box Association. 10 lb. weight, 112 pounds; bantam under 115 pounds; feather, 145 pounds; light, 185 pounds; welter, 175 pounds; middle, 160 pounds; light heavyweight, 175 pounds; and under heavy, 175 pounds and over. (All weighing six hours before ring time.)

New-York - Day-By-Day

By C. A. McIntire

NEW YORK, Nov. 10.—Bob Davis is leaving Mueser's magazine organization. The trouble "B. H." has been on the job for 18 years, but a great football coach training writers, cheering them and pointing out their mistakes. He will continue the work he loves—that of finding new writers and bringing them into relationship with publishers—independently.

When O. Henry was grinning on his first fiction that no one would buy on the top floor of the Herald Tribune in Twenty-fourth street, Davis found him and put him under a five-year contract. He published all of the early stories of Mary Roberts Rinehart.

Francis Hurst came out of St. Louis to New York bustling with his dreams. Editors were sympathetic but they would not buy his stuff. But Davis did and induced her to turn her attention to the themes that have given her distinction. He lifted Charles Van Loan out of Park Row and sent him to the Journal-American field in Boston.

If it had not been for Davis, Montagu Glass would today perhaps be a hawker's clerk. He came to Davis' door one day and said he was going to return to the law office from which he resigned to write. Davis spent several hours begging him to write three more stories before striking his colors. Among the three was the first "Delish" and "Perdumb" tale.

In 1914 Davis was in England hunting material. He read the manuscript of a story entitled "Black Diamond" by Joseph Conrad. It was a brilliant bit of writing but lacked plot. It was like a handful of glittering jewels, unstrung. Davis sent for Conrad to come to the Savoy and there he urged a plot. Conrad finally agreed. The novel appeared under the title "Victory" and is Conrad's best seller.

He was always going out of his way to say a kind word of encouragement to the beginner. One of the first series of daily vignettes of Manhattan was Bob Davis. He receives a thousand letters a month from writers, many of whom he has never seen. Twenty-six books have been dedicated to him. He is a big, heavily built man, with eyes that twinkle incessantly with good humor. He is said to be wealthy.

He had the necessary brown—or is it mauve?—eyes, and shining black hair of the movie hero. His nails glittered, his clothes fit tight and his collar choked. Across from him as a dinner companion sat a young girl who has appeared everywhere films are shown. They were playing not interested in each other. "Their interest was in watching the crowds watch them. He spoke of his 'rueful' scene. She went out for a saffron evening paper to look at the comic pictures. He spoke harshly to the waiter about the salad dressing. A long lull in conversation. Then there came into the room John Drew and his more Ethel Barrymore. In a few minutes the movie pair left suddenly annoyed. In their parlance I guess it would be called "watching their act." For all eyes were on Mr. Drew and Miss Barrymore.

Shades of Diana? Madison Square Garden is now being dubbed "Garden of Eden" by the sport writers. It is the haven of the port-and-bean prize fighters. All of the big matches are made there and the Great Army of Camp Followers hang about the doors, waiting for a chance to appear in a prelude. Tim Heilard has a lease on the Garden and his offices are there. His presence brings many more who are always looking for a few stray crumbs from the fight promoter's table.

The United Trousers

A little fellow sat on a doorstep crying bitterly. Tarsers tried to console him, but without avail. Preceding a sympathetic old lady came along.

"What's the matter, little one?" she asked.

"Got my new trousers covered with dust," sobbed the boy.

"But they're clean now, dear," comforted the lady.

"I know they are," wailed the lad.

"Then why do you still cry, child?"

"'Cause mother wouldn't let me take 'em off when she dusted 'em."—Pearson's Weekly.

The Long Sleep

Question—(On long sleepers sent to hospital)—Do your internes give anesthetics?

Answer (from a well known eastern hospital)—Each interne must anesthetize the patients for four to six months which will give them about 3,000 anesthetics.

Where She Heard It

Little Theda Morgan said, "Oh, the do!" right out loud when the AIA Koging was meeting at Morgan's place. Mrs. Morgan said, "Why, Theda, where did you ever hear such language?" Theda innocently replied, "Don't you remember what you said yesterday, mamma, when you dropped the custard?"

They Can Usually Tell

One fellow asked another "Have you ever heard anything about a machine for telling when a man is lying?"

"Sure," was the answer.

"Have you ever seen one?"

"See one?" said the fellow. "By gosh, I married one!"

A New Year's Motto

Time is
Too slow for those who wait.
Too swift for those who fear.
Too long for those who grieve.
Too short for those who rejoice.
But for those who love
Time is eternity.
—Henry Van Dyke.

The Old Ones are the Best

A certain surgeon who was very young and also rather shy was invited to dinner by a lady who was at least fifty, but frivolous enough for twenty. At dinner she asked the young surgeon to carve a chicken, and, not having done so before, he failed lamentably. Instead of trying to cover his confusion, the hostess called attention pointedly by looking down the table and saying loudly:

"Well, you may be a very clever surgeon, but if I wanted a leg off I should not come to you to do it."

"No, madam," he replied politely, "but then, you see, you are not a chicken."—Pickup.

Recently, says the Foremost Aunt Mary Wells, who is one of the few "hobo-de-wah" negroes who are left in a little Kentucky town, was discussing the merry-go-round with her employer.

"Now, I don't ride on none o' dem things. Why, Mr. Malcolm, I've seen some o' dese hobo fool niggers sit on that thing and ride as much as a dollar's worth, and get off at de very same place dey sits on at; and I see 'em, 'Now yo' spent yo' money, child, what yo' born?'"

Not Always

"Worth" in proper names, as in Kenilworth, Edgeworth, etc., signifies that the town stands on a tongue of land.

Treat It Rough

"Doctor, a week ago you gave me something that you said was good for my dyspepsia."

"Yes."

"Well, now suppose you give me something that's bad for it. I think it's been humored enough."—Boston Transcript.

No Treat

Mabel—Did the doctor treat you?

Helen—No; he charged me five dollars.—Jester.

WORDS OF WISDOM FOR WOMEN

ALL the women of the United States have had placed in their hands through the franchise a powerful instrument for the promotion of righteousness in politics and the advancement of the interests of the nation and the community in which they live.

Mrs. Burritt Hamilton, president of the Michigan Federation of Women's Clubs, warns the members of her sex against being too hasty to enter into contests for the official positions that are open to them under the grant of the franchise. They may prejudice their own cause greatly by doing so.

"Don't be too eager to hold office," Mrs. Hamilton says, "and be careful about making premature adventures into active politics. Hasty endeavors by women to elect those of their sex to positions of public trust regardless of qualifications, would result in changing our splendid opportunity for leadership for a little brief authority."

There is little danger that this advice will be taken over seriously by women, but it must be plain to women who have the interests of their sex at heart that undue haste to become office-holders may have the effect of creating sex distinctions that may be resented by large numbers of male voters.

The organization of a strictly woman's party would only work injury to the cause of woman suffrage, for it would create distinctions in sex which have been eliminated by ratification of the nineteenth amendment. It would be a mistake to bring about a situation that would make women seekers for power only, rather than to work to the interests of all classes of citizens.

Women will, in the course of time, enter into the enjoyment of their full rights as holders of public office, just as they have taken their places in business and in professions. Nothing is to be lost, and much probably gained, by the exercise of patience on the part of the newly-enfranchised women.

The wife who is able to make her husband jump through a hoop does not do herself credit by giving public exhibitions.

It is said that love laughs at locksmiths. At house storages as well, if the demand for marriage licenses is any indication.

A verdict in favor of the plaintiff was returned by a jury in Common Pleas Court Tuesday afternoon in the case of John G. Underwood against Oscar Boyer and Tillie Boyer, 1015 Third street.

Underwood, who was formerly local manager of the Woolworth store, sued on a claim of \$219.50 as damages for the loss of personal property which he claimed was destroyed on July 26, 1919, when the north wall of the Woolworth building collapsed as a result of an excavation made on the adjoining lot by the defendants.

The jury, after deliberating on the case but a short time, awarded the plaintiff \$200. Attorney H. F. Kimb's for Underwood and Attorney George W. Sheppard for defendants.

At a very enthusiastic meeting of the men of the First Christian Bible school last night, plans and reports for the work of the men during the month were discussed.

The meeting started off with some good five songs and devotional. The singing being taken over by E. N. Miller and the devotional led by C. M. Howland.

After hearing the reports of the various classes of men and boys and a short report from the athletic director, L. A. Thompson, the enthusiastic band led to a time with tales of his personal experiences as a former service man. Attorney Thompson's remarks were well received and thoroughly enjoyed.

The men have a high altar set for the month and went away from the meeting thoroughly determined to help put the school up for an average of a thousand each Sunday during the month.

Another meeting is planned for next Tuesday evening at 7:30, and a spending program is being worked up for the occasion.

The Junior boys held their traditional weekly athletic session in the gymnasium under the supervision of Messrs. Holkins, Shelton and Holbrook. This was closed with a short business session and the boys and their parade for next Sunday, to start from the corner of Gray and Galia was discussed.

SKOWIEGAN, Mr. Nor. 10 - Further particulars of the murder of Asa Etorken, station agent at Embury, by John Brown, 23, of Boston, Earl Morris, 22, of Ashland, Ky., and James Carroll, 23, of New Britain, who have been charged the crime to Sheriff John Meekers, were made known today.

Bentley Case, a former living next to the station, heard the agent cry, "You get out of here," and the blows of the hardwood sled stake on his head. He was then out-

side on the platform. The fatal blow was struck by Morris with such force that the stake broke in fracturing Etorken's skull. The men next dragged the body into the station.

The station looked like a slaughter-house. Blood was on the platform, side of the building, and a trail led where the men carried the body. The murder was done, apparently, as Medical Examiner Stinchfield reports from his investigation, on the north end of the platform of the station.

The men did not attempt to be the agent or ask for his money, so Etorken had without warning, so officials. It is said they had shipped by a Boston employer, agree to Kline to work for the Kline Realty Company, but did work long before starting back to Kingston.
